A manual was developed to give "some rational guidance in citing procedures for U.S. government publications." The manual calls for full citations, rather than abbreviations in order to ease the task of identifying and locating a document. Directions are given for bibliographic citations of: general publications; congressional publications; presidential publications; laws, regulations, treaties, Supreme Court decisions, and the Constitution; as well as periodicals. Appendixes contain a selected list of style manuals and sample bibliographic citations.

For out-of-print issues of *College & Research Libraries*, write to University Microfilms, 300 North Zeeb Road, Ann Arbor, MI 48106. Issues are available one year after date of publication.

# NEW Up-To-Date Books From Noyes Data

NOYES DATA has developed two new techniques of vital importance to those who wish to keep abreast of rapid changes in technology and business conditions: 1) our advanced publishing systems permit us to produce durably-bound books within a few months of manuscript acceptance; 2) our modern processing plant ships all orders on the day after they are received.

## HARDCOVER BOOKS PUBLISHED FALL 1975

### **SULFUR DIOXIDE REMOVAL FROM WASTE GASES—SECOND EDITION by A.V.**

**Slack and G.A. Hollinden:** Sulfur dioxide removal from waste gases remains a major problem to the industries concerned, with removal techniques still changing. The authors, both of them experienced and active in this field, place particular emphasis on major changes and developments since 1971, when the first edition was published. ISBN 0-8155-0585-X; \$36

### **NUTRITION TECHNOLOGY OF PROCESSED FOODS by Nicholas D. Pintauro:**

Practical recommendations for food industry action in helping to design a new American nutritional pattern, now emerging because of economic considerations, the desire to reduce carbohydrate intake and to eat less saturated fat- and cholesterol-containing products. ISBN 0-8155-0586-8; \$36

### **SYNTHETIC PAPER FROM FIBERS AND FILMS by M.G. Halpern:**

This book deals with research efforts so that man-made fibers can be made into paper with sufficient coherence to be processed on conventional papermaking machines. ISBN 0-8155-0587-6; \$36

### **OIL FROM COAL by Francis W. Richardson:**

This book presents the operating details of many coal liquefaction processes now undergoing extensive field operations here and abroad. Increasing attention is being given to making a low ash, low sulfur oil that can be burned as fuel, thus freeing natural crude oils for increased gasoline production. ISBN 0-8155-0588-4; \$36

### **HYDROGEN SULFIDE REMOVAL FROM GASES, AIR AND LIQUIDS by Paul A.**

**Ferguson:** The aim of this book is to furnish reliable and efficient methods of  $H_2S$  removal. The major industrial processes described include the purification of natural gas and the removal of by-product  $H_2S$  from petroleum refining, coking and Claus process operations. ISBN 0-8155-0589-2; \$36

### **DOUGHS AND BAKED GOODS—CHEMICAL, AIR AND NONLEAVENED by D.J.**

**De Renzo.** This book emphasizes commercial baking techniques not employing yeast. Chemical leavening agents are preferred for sweet bakery products. A very informative volume for progressive bakery managers and food technologists specializing in baked goods. ISBN 0-8155-0590-6; \$36

### **OCEAN WASTE DISPOSAL PRACTICES by Alexander W. Reed:**

This book is an evaluation of waste discharges and practices as they affect the littoral regions of the United States, with many projections of the ultimate influence upon the world oceans. ISBN 0-8155-0591-4; \$24

**Do you know where  
your books are?**

With LIBS 100 you do. Because LIBS 100 creates an immediate record of every book transaction. Files it for immediate recall. And creates an up-to-the-minute report of all book activity during the past day, the past week, or even the last few minutes.

First, LIBS 100 speeds check-out. The book and patron information is quickly read with an electronic pen. It takes about two seconds.

Then, it creates a record, matching the patron with the books borrowed. You can ask the system about the patron, and get a listing of all the books he already has. Or, you can ask about the book and learn which patron has it. LIBS 100 assigns a due date to each book. Even prints reminder notices for books that are overdue or on hold.

And finally, LIBS 100 compiles circulation data, activity reports by titles and classifications, and shelf clearance reports. Along with other information you always wanted, but was simply too difficult, too costly to assemble.

LIBS 100 is a total library circulation control system. Packaged for easy operation in any library.

Best of all, it comes from CLSI. Library people dedicated to solving library problems. With systems for circulation control, materials booking and payroll installed and running in scores of community and academic libraries across the country. We didn't just come in at the very last hour.

# **access to media** *...too big a job* **for anything but MRD.**

**MEDIA.** That's a lot of territory to cover when you need to use something special. Particularly if you don't know which medium to use, let alone what is available in each.

Unless you know the right place to look.

**MEDIA REVIEW DIGEST** is the right place to look, for non-book media review and acquisition data on anything from feature films to games and educational toys.

**MRD** researches media in 204 critical review sources from **PLAYBOY** to **RELIGION TEACHER'S JOURNAL** and comes up with the hard facts every quarter — plus extras like content summaries for feature films, **complete cataloging data** in both Dewey and Library of Congress formats, awards and prizes section, frequent quotes from significant reviews for quicker selection, a directory of producers and distributors for one-stop acquisition, thorough cross-indexing...more than we could even list here.

**But don't just take our word for it.** Check out the exhaustive review of **MRD** in the June **Booklist REFERENCE AND SUBSCRIPTION BOOKS REVIEWS** section, page 1087.

Then consider putting **MRD** to work in your media center.

## YEARS OF BOOK REVIEW INDEXING

## BOOK REVIEW INDEX

*Edited by Gary C. Tarbert. Annual Cumulations published shortly after the close of each year, \$68.00/year. Periodical Issues appear bimonthly (every second issue cumulates the preceding issue), subscription, \$68.00/year.*

### Annual Cumulations of *BRI* from 1965-1974, Citing Over 700,000 Book Reviews

With the publication of the retrospective index for 1969, the three-year gap that formerly existed in *BRI* coverage has been filled. This is an appropriate time for libraries with broken runs of *BRI* to order all missing back volumes. Covering 700,000 reviews of 340,000 books and stretching from 1965 through 1974, the ten volumes of *BRI*, all of which are in print, offer an unmatched research resource.

*Book Review Index* covers all reviews appearing in over 230 magazines and newspapers, including all major literary and educational periodicals plus more specialized publications that review books on arts and crafts, business and economics, religion and philosophy, minority affairs, current social issues, and many other topics. Each listing provides the author's name, title of book, reviewing publication, date of issue, and page of review.

### REVIEWERS PRAISE "BOOK REVIEW INDEX"

"A basic reference tool which belongs in all libraries" (*Choice*, January, 1966).

"No other indexing service offers the speed and diversity of *Book Review Index*. It is recommended for all libraries" (*Booklist and Subscription Books Bulletin*, November 15, 1965).

"*BRI* will certainly become a first choice for

all libraries since its scope is so broad, and its accuracy and timeliness exceptional" (Nancy Buckeye, *Reference Services Review*, October/December 1974).

All Gale Books are sent on 30-day approval. Place standing orders for periodical issues and annual cumulations of *BRI*.
